Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Saturday 17 Jul 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Sunny and hot; cooler and cloudier far north.

This Evening and Tonight:
After a sunny and very warm evening for many areas, a few mist patches will form later. Cloudier across the far north and north-west of Scotland with some rain or drizzle at times.

Sunday:
Sunny and hot for much of England and Wales, although an isolated heavy shower may develop later. Cooler and cloudier in the north with some light rain in far north.

Outlook for Monday to Wednesday:
Often cloudy and cool for northern parts of Scotland, with light drizzle at times. Elsewhere, plenty of fine weather. Very warm or hot here. Isolated afternoon thunderstorms possible.
